Registration Zones

The registry offers registrations at the second level. It also offers third-level registrations in the following zones. These zones and second-level domain names are reserved for use by qualified organizations in Montenegro, and will be available for registration through ME-Net only:

- **co.me**: may contain legacy registrations migrated from the **.cg.yu** zone.
- **net.me**: reserved for third level registrations.
- **org.me**: reserved for third level registrations.
- **its.me**: reserved for third level registrations.
- **priv.me**: reserved for third level registrations.
- **com.me**: reserved to avoid confusion with co.me.

Restricted Strings

Minimum Character Length

The minimum length of a . ME domain name will be three characters. One-character and two-character domain names shall be blocked from registration, and reserved for future registration and use as determined by the Registry.

Numeric/Hyphen Domains

All second - level domain names of at least 5 characters in length that are comprised solely of numerals or numerals and hyphens shall be blocked from registration, and reserved for future registration and use as determined by the Registry.

IDNs

IDNs will not allow until further notice. All domain names with hyphens in the third and fourth positions are prohibited in the registry.

Before IDN registrations are made available, the government and the registry will designate reserved IDN names.
